The site plan shows a large, L-shaped building footprint with a central courtyard. The building has a main entrance on the left side, with a ramp leading to a raised island in front of the office door. The building is surrounded by a parking lot with 100 units. The site is bounded by Red Acres Road to the north and east, and a residential street to the south. The plan also shows existing topography with contour lines and various utility lines.

RED ACRES ROAD
